Centuries ago, the dragons created the islands of Japan by pulling them up from the depths of the ocean. Japan was their roost, from which they ruled the world. When the heroes of the world arose, they defeated the dragons and claimed the islands for their own. They imprisoned the dragons deep within the mountains of Japan. Prophecy foretold of their return, the dragons rising again to claim their rightful place. They would again rule their world – or destroy it.

Some prayed that the reign of dragons would indeed remake and save the world, infusing a strong will that would end the petty human concerns that cause great suffering. The heroes seated in Japan were petty and warlike, consumed with greed and power. Those who prayed for their comeuppance became a cult that saw them as anything but heroes – and, instead, prepared for the dragons' foretold return.

Wives and daughters invoked rituals in service to the dragons; over time, they became powerful weapons. By the late nineteenth century, their efforts splintered by men into different agendas, those women became an elite assassins' guild, Jade Warriors in service of the Yakuza – enhanced assassins much feared throughout the world.

As the dragons return, one of the Jade Warriors, Angel Sorayama, escapes after discovering terrible truths – fleeing from her life's mission. The hunter becomes the hunted as the fate of the planet hangs in the balance!

What made many of the great adventure comics of the 1960s so attractive were their fantastic painted covers by artist George Wilson. Wilson also turned in hundreds of painted covers for paperback books that range from The Phantom and Flash Gordon to romance, adventure and war titles, all illustrated in the extensive survey of his work. Unlike the majority of comic book covers of the era, Wilson's covers harkened back to the era of pulp magazines and were spectacularly eye-catching. He turned in efforts for literally hundreds of comics titles — this important monograph on the artist provides examples of every genre he worked in. Presented are cover paintings scanned from the original artwork from Classics Illustrated, The Twilight Zone, Ripley's Believe It or Not, Doctor Solar, Magnus Robot Fighter, Turok, Son of Stone, Star Trek, Korak, Son of Tarzan, Mighty Samson, Brothers of the Spear, Boris Karloff Tales of Mystery, Space Family Robinson, Dark Shadows, and The Occult Files of Doctor Spektre to name but a few. This new art book focuses on over 300 examples of his cover art accompanied by an introduction by famed artist Joe Jusko, an exhaustive essay by Anthony Taylor and the only interview Wilson ever gave. This is the utlitmate, definitive art book about one of the most important cover artists of the Silver and Bronze ages.

When Dethany Dendrobia, the cheerful 12-year-old Goth, joins the neighborhood swim team, she assumes she is just helping out friends who need an extra person to qualify for meets. "Referred to by comic strip historian Maurice Horn as the "granddaddy of all costumed superheroes," The Phantom was created in 1936 by Lee Falk. The strip hit the funny pages of newspapers well before the Dark Knight or Superman made their first appearances and has been acknowledged as an influence on every "masked man of mystery" since. The Phantom set the standard for action, adventure, intrigue, and romance in adventure comic strips and comic books — it has frequently been copied but never equaled.

This exciting 34th volume continues the SY BARRY YEARS! Reprinted in all its black and white glory, journey with Hermes Press as we bring you five complete continuities drawn by Sy himself which continue the adventures of The Phantom, Diana, and his two children: "The Death Threat,"The Master of Eden," "Attack of the Witchmen," "The Valley of the Elephants," and "Zima the Rogue Elephant" Also included is a comprehensive essay and documentary materials."
